

## **GSC 2020 | General Body Meeting**

**June 29th 2020**

### **Discussed items:**

- Ammar communicated that, from the educational domain group meetings, the access to students will be granted only after all buildings are all declared open. Only experimental labs are open.
- For the Fall semester, hybrid system will be implemented for courses. The library initially proposed to open while only allowing a maximum of 100 people at once.
- Regarding the academic calendar survey, student body recommendation was taken. For Spring 2022, 57% of students voted to start the semester on January 23rd. This means both the last week of classes & finals are after Eid break; Eid break May 1-7, then last week May 8-14, then finals start on May 15th.
- Sarah discussed that the orientation program staff were so receptive, but they cannot incorporate it into the program as mandatory. The program is recommended to be extend into series.
- Marram updated on TEDx progress. They came up with two themes: resilience and new era. The committee is currently waiting for a faculty advisor.
- Sarah discussed the three divisional committees, with leveraging the autonomy and the connections to the GSC at the same time. We need to establish a framework to help with regulations and tasks.
- GSC has access to VPs and leadership, where it changed the game with
- Mawadah updated recent efforts on social media. Ammar suggested collaborating with Michael for his strong presence.
